

# How Your Overhead Can Improve Your Bottom Line.

*CardioDeck™*

A SUBSIDIARY OF PENCO PRODUCTS, INC.

**CardioDeck™**

**With Our Custom Conversion, You Can Turn Wasted Vertical Space Into New Profit Centers.**

Want to make more money out of thin air? We mean the thin air that's above your under used racquet courts.

With a Schmidt Structural Products conversion, you can add space and flexibility to your current facilities, at far lower cost than conventional building renovations or additions.

And, with Schmidt Structural Products **lease** plan you can see big gains with no pain.

Whether you buy or lease, your new mezzanines will give you space to add:

- Aerobics Classes
- Weight Training Rooms
- Fitness Centers
- Karate and Dance Classes
- Game Rooms
- Meeting Rooms
- Physical Therapy Rooms
- Snack and Lunch Bars
- Offices and Classrooms
- Filing and Storage and More

Schmidt Structural Products specializes in designing and installing custom conversion fro racquetball and fitness center throughout the country.

Utilizing our state-of-the-art computerized engineering service, we can create an upper level based on your exact space requirements, accommodating any obstructions, unusual building characteristics, or special heavy load requirements.

You can divide the room vertically with a balcony style floor plan, or you can run your mezzanine from wall to wall to create two completely enclosed rooms. Openings and stairways can be provided at any location.

For more information on how to double your floor space and your profit centers, contact us directly at the number below. And don't forget to ask about our affordable leasing options can make getting the most out of your facility easier than you ever thought possible.
